PROFILE

Startup-minded product and cloud solutions architect with a full-stack engineering foundation in Vietnam's banking sector. I take ideas from concept to architecture, MVP and iteration, optimizing for time-to-value, reliability and measurable customer outcomes. My work spans millions-scale public platforms, T24 core-banking architecture, generative AI, real estate and experience with a leading Swiss proptech group.

EXPERIENCE

Solutions Architect

CURRENT

VIETNAM INTERNATIONAL BANK (VIB)

- Partner with the Board of Directors and cross-functional leaders to shape business and operating strategy; helped establish the business and operating foundation for GNM TPU and was selected as an inaugural HAGT-1 member supporting multiple teams.
- Own landing-zone and hybrid, multi-cloud architecture spanning on-premises infrastructure, VIB private cloud, multiple regions, AWS, Google Cloud and Azure; architect millions-scale public web platforms and Temenos T24 core-banking hosting, coordinating AWS global specialists and internal teams for secure integration and resilience.
- Introduced VIB's first low-code platform to accelerate time-to-market, established its first AWS serverless architecture and led the first in-house generative AI initiatives from proof of concept to production use cases.
- Architect ViePro, the customer-facing chatbot for MyVIB, and Akabot OCR automation with VNG GreenNode and FPT; own architecture and handover across the CA platform and Mendix applications.
- Train HR teams in applied AI and represent VIB at Vietnamese universities, sharing practical AI experience, engineering culture and the future of work; recognized for impact with a company-sponsored trip to the United States.

Senior Software Engineer

2020 - 2025

SMG SWISS MARKETPLACE GROUP VIETNAM

- Received SMG's Transformation Team Award after the team exceeded delivery expectations for Marketing Suite; led customer campaign tools such as Demand Boost and built capability through shared learning.
- Built and operated core search and search-alert capabilities for millions-scale marketplace traffic, applying Elasticsearch, performance engineering and elastic scaling to protect relevance and responsiveness under peak load.
- Led core migrations from .NET to AWS serverless architecture across Property Valuation, Seller Lead and related services using Node.js, TypeScript, Lambda, Step Functions, DynamoDB and CDK.
- Enabled engineers through mentoring and knowledge sharing, supported hiring, and represented SMG Vietnam at AWS re:Invent 2023 in Las Vegas.

Software Engineer

2018 - 2020

AS WHITE VIETNAM

- Owned improvements across seven internal products, turning employee feedback and operational needs into maintainable product changes.
- Designed and delivered the Claim Directory product from discovery and data design through front end, back end and production rollout.
- Applied clean architecture, automated testing and reusable patterns to reduce delivery risk and strengthen long-term product ownership.

Software Engineer

EARLY CAREER

MTI TECHNOLOGY VIETNAM / TPBANK SAVVY / FREELANCE

- Turned customer needs into working applications, from discovery and experience design through testing and production delivery.
- Won first prize at the MTI Hackathon with a connected smart-garden system spanning software and hardware.
- Led small teams across e-commerce, automotive listings and cross-platform mobile products, mentoring contributors and owning outcomes end to end.

SELECTED OUTCOMES

- 01 Enterprise Strategy Activation

GNM TPU / HAGT-1 business and operating architecture
- 02 VIB Banking & Customer Platforms

Hybrid cloud, core banking, public channels and AI
- 03 SMG Marketplace Transformation

Customer product and cloud modernization
- 04 FinHome Group

Free iOS home-buying decision platform

CAPABILITIES

Product & business architecture

Customer outcomes / Value discovery / Product strategy / Business capabilities / Operating models / Roadmaps / Success measures

Product leadership & process coaching

Product management / Executive advisory / Cross-functional alignment / Process coaching / Team enablement / AI training / Change adoption

Cloud & intelligent products

AWS serverless / Cloud native / Low code / GenAI / LLM agents / RAG / Human-in-the-loop / Integration / Observability

Full-stack engineering

C# / .NET / TypeScript / Node.js / Next.js / Python / Microservices / DDD / CI/CD / Automated testing / AWS CDK

CERTIFICATIONS

Kubernetes and Cloud Native Associate (KCNA)

Cloud Native Computing Foundation / Linux Foundation / Aug 2025

AWS Certified Developer - Associate

Amazon Web Services / Jan 2024 - Jan 2027

EDUCATION

Higher Diploma in Software Engineering

FPT Aptech / 2016 - 2018 / Graduated with Distinction

Electronic Communication Engineering Technology

Ho Chi Minh City University of Technology / 2015 - 2016

Electronic Communication Engineering Technology

Cao Thang Technical College / 2012 - 2015

LANGUAGES

English - professional working proficiency
Vietnamese - native

Cloud-native proof. Product-minded practice.

Verified certifications and structured learning across Kubernetes, AWS cloud, data engineering and applied AI.

FLAGSHIP CREDENTIALS

VERIFIED / FLAGSHIP

Kubernetes and Cloud Native Associate (KCNA)
Cloud Native Computing Foundation / Linux Foundation / Aug 2025
Credential: LF-0463wqzex4

VERIFIED / FLAGSHIP

AWS Certified Developer - Associate
Amazon Web Services / Jan 2024 - Jan 2027
Credential: bca70d04287545f0873580d0a14d7059

PROFESSIONAL LEARNING RECORD

Developing Serverless Solutions on AWS Amazon Web Services / 2022	Create Agents in Microsoft Copilot Studio Microsoft Learn / Oct 2025
Xamarin Certification Xamarin / 2017	Create and Publish Agents with Microsoft Copilot Studio Microsoft Learn / Oct 2025
Data Engineering on AWS - Foundations AWS Training and Certification / Jun 2025	Digital Literacy Capability Building Program (DCB) Vietnam International Bank (VIB) / Sep 2025
Transform Your Everyday Business Processes with Agents Microsoft Learn / Oct 2025	AI Fluency: Framework and Foundations Anthropic / 2025
